

Mr. Gannon,

As a resident, builder/developer in the Triad, and TREBIC member, I have serious concerns regarding the new Jordan Lake initiatives proposed by DENR. There must be conclusive evidence that these initiatives will deliver the anticipated results without severe repercussions to the taxpayers, developers, and resident companies/industries that are currently operating or desire to operate in the Triad. Please note my objection to these proposals without verifiable evidence of their efficiencies. Thank you for your time and have a great weekend.

William E Collins
